Editor's Letter

Welcome to the latest issue of Australian Dogs and Pets magazine!

This issue, we are absolutely thrilled to bring you exciting feature stories, helpful tips and interesting breed profiles.

Inside this edition, you will find some fantastic hints to help you look after your pet, including tips to improve rescue dog behaviour and a guide to finding the perfect groomer. We have also included a wonderful article for anyone interested in understanding the pros and cons of pet insurance. You never know when you may need it! For those thinking about taking your furry friend on holidays, we have found some wonderful pet friendly places to visit.

Every issue, we feature profiles that showcase some truly special cat and dog breeds. We put a spotlight on the adorable Miniature Schnauzer as well as the beautiful Collie breed. If you're more of a cat person, we have included some

in-depth information on the fascinating Norwegian Forest Cat.

We love speaking to pet owners, experts and breeders from around the country. Time after time we find ourselves hearing from people who have so many stories to share, many of which highlight the vast impact their pet, or involvement with pets, has had on their life. We hope to share with our readers the most captivating stories and news that will inspire and change the habits and lives of pets and their owners.

It is always wonderful to hear from our readers so if you have any thoughts, stories or ideas please get in touch with us on pets@wpco.com.au. Happy reading!

Amy
